MR. GREEN

APPLE TREE SERIES

GLUTEN FREE

GO TEXAN.

Mr. Green is a uniquely bright, dry and well-balanced single varietal cider that is deliciously tart. Made from Rhode Island Greenings, this refreshing cider drinks more like a coastal Italian white wine with wonderful minerality and complexity. The Greening is a well-known American heirloom apple that dates back to the 17th century - making it one of the oldest cultivated varieties in the world.

CIDER MAKER'S NOTES

Mr. Green is the only cider we make that is based on only one type of apple. The Rhode Island Greening has strong yet well balanced levels of sugar and acid - it is a great cider maker's apple. In the finishing process it requires very little sugar adjustments; this results in a very tart and green apple forward cider that drinks more like a wine.

INGREDIENTS: Fresh apples, cane sugar, sulfites

APPLES: Rhode Island Greening

AROMA/FLAVOR: Strong aromas of green apples with a lovely undercurrent of balanced limestone and mineral crispness. Captivating the fruit at its peak, Mr. Green bursts with bright green apples with nuances of succulent grapefruit and white melon.

PAIRINGS: Ceviche, Spicy Dishes

COLOR: White Gold

KEY STATS: ABV: 6.2% CALORIES: 140 SUGAR: 3g

MIXED 12-PACK

City Orchard is a Houston-based urban cidery with family-owned orchards in the Great Lakes region. We press carefully selected apples on the farm, truck the juice to Houston, and produce traditional ciders in an urban setting - we are an orchard in the city. A little unorthodox - but this is Texas. We manage the process from tree to glass. Real Apples, Real Cider.
